

A circular graphic with a teal-to-blue gradient background. In the center is a map of Louisiana and Mississippi. Louisiana is colored light green, and Mississippi is a slightly darker green. A dark teal, irregularly shaped area is overlaid on the border between the two states, labeled 'RECHARGE AREA'. A red star is located within this recharge area, near the southern coast of Louisiana. A black circle is positioned in the upper left quadrant of the map, containing the text 'SOUTHERN HILLS AQUIFER SYSTEM'.
